US Justice Dept,

MSFT has NOT harmed a single consumer. Please cease further action...except to shut down the case. We customers would not be as advanced in computer knowledge and capability if it had not been for Bill Gates and Co. America is also better off for having had MSFT products and services AS-THEY-HAVE-BEEN-SOLD.

Antitrust action protects consumers not competitors. Again, I cannot see where the first consumer has complained.

V.P. Miele
